Practical Christmas Suggestions

Elaborate Display of Useful and Beautiful Remembrances

HILE we always believe that a fine suit or overcoat is the most sensible holiday offering that may be made to man, no matter what his age, we nevertheless are aware that there are scores of people who may not agree with us---and still others who do not care to invest, or cannot afford to invest the amount necessary to buy a suit or overcoat. Accordingly we call attention to the practical gifts of a lighter character, which we have collected in abundance and which are most acceptable to a man at all times. We show the precise article which father, brother, son or sweetheart would most appreciate.

Not Only Do We Get Inspiration From

Nature, But Health as Well.

For people who are run-down and nervous, who suffer from indigestion or dyspepsia, headache, biliousness, or torpid liver, coated tongue with bitter taste in the morning and poor appetite, it becomes necessary to turn to some tonic or strengthener which will assist Nature and help them to get on their feet and put the body into its proper condition. It is becoming more and more apparent that Nature's most valuable health-giving agents are to be found in forest plants and roots.
